Tokyo Bay Undersea Tunnel--Sea Fireflies

This earthquake-sensing project was opened to traffic in 1997 and is called the Tokyo Bay Undersea Tunnel. The artificial island at the entrance of this tunnel is called "Sea Firefly" and is a rest stop on the highway. It is about 600 meters long and can be seen during the day. It looks like an aircraft carrier and at night it emits beautiful lights like fireflies flying on the sea, hence its name. Sea Firefly has a total of 5 floors. The 1st, 2nd, and 3rd floors are parking lots. The 4th floor is a rest area with various shops such as a movie aquarium, souvenir shop, and restaurant. The 5th floor is a gourmet dining area. Here you can enjoy the unique beauty of Tokyo Bay with a 360° view.

The ancient capital of Kamakura - Hachimangu Shrine - Komachi Street - Shonan - Enoshima coastline:

Kamakura, Kyoto, and Nara are known as the three ancient capitals of Japan. The one that began in the shogunate era is a thousand-year-old ancient capital. Kamakura Shogunate, Tsurugaoka Hachimangu Shrine is the family temple of Minamoto Shiki.

Komachi Street is part of the approach to Tsurugaoka Hachimangu Shrine. It is a pedestrian street full of Edo style. From time to time, you will encounter Geisha's clogs as if you have traveled through time and space...

Driving along the Kamakura-Shonan coast to Enoshima, you will enjoy the magnificent coastal landscape, and you may also walk side by side with the famous century-old Enoden train, and pass by Kogakumae Station to relive the memories of "Slam Dunk" . The Japanese animation industry has a soft spot for this.

Owakudani Volcanic Site-Lake Ashi-Hakone Shrine

Also known as the Great Hell, it is the remains of a crater formed by a massive volcanic eruption more than 3,000 years ago. It is also a major source of Hakone hot springs. Here you can enjoy the sulfur steam and hot springs. When the weather is clear, you can overlook Mount Fuji. You can also taste "black tamago" (black eggs) boiled in hot spring water. This is also a viewing point overlooking Mount Fuji. When the sky is clear, the scenery is very magnificent.

Japanese hot spring

Japan is known as the "Kingdom of Hot Springs". Hot springs are not only numerous in number and variety, but also of high quality. If you haven't experienced a Japanese hot spring, you haven't been to Japan! Traditional Japanese-style hot spring hotels, from the hotel's architecture, decoration, gardens, hot springs and cuisine, are all carefully crafted, tranquil and Zen-like, which can calm your mind! This is the essence of Japanese hot spring culture! Our group selects authentic Japanese hot spring hotels to allow you to experience a rich Japanese style journey.
